Partnership Announcement:

Equinox Power Solutions with Munge's Service & Supply

Partnership gives both companies access to more sales channels

Equinox Power Solutions and Munge's Service & Supply announced today that the companies have entered a strategic partnership that will allow each company to double the size of their sales and marketing channels.

The agreement brings together Equinox Power Solutions (EPS) connections to Mechanical Power Transmission products supply and Munge's Service & Supply connections to Mechanical, Electrical, and general supply in Zambia.

"We'll achieve increased market efficiencies," said Paul Talla, the EPS GM of Sales. "Through new dynamic synergies."

Customers of the Munge's Service & Supply will now be able to purchase Dodge Industrial mounted bearings, enclosed gearing, power transmission products and solutions as well as Fluke Reliability (Pruftechnik) Laser Alignment and Vibration Analysis Products and Solutions from one source in Zambia.

"Our synergies are going to be so dynamic going forward," said George Mumbi, Munge's Service & Supply Head of Sales. "Our market efficiencies will increase dramatically."

About Equinox Power Solutions: Equinox Power Solutions is the official partner of **Dodge Industrial and Fluke Reliability (Pruftechnik)** for the African Market. With Logistic office in Johannesburg South Africa, EPS has been in the business of making things for the B2C and B2B markets since 2018.
